A happy Festive Season to all

www.sanparks.org

We wish all our readers a Merry Christmas and joyful times with family.

Cape Agulhas Lighthouse

After 15 months of extensive restoration work to the Lighthouse building it will finally open on the 10th of December 2013!!

Agulhas Infrastructure development

The first projects in this phase of infrastructure development in Agulhas Park started on track. The construction site for the five single **chalets** is being prepared and secured. The groundwork for the two **staff houses** is at present under construction. The **Lighthouse Precinct development** plans were accepted by Heritage Western Cape and the tender process will start in 2014. The **Southern Tip Development** is in a planning stage; a Heritage architect was appointed. The construction and restoration of **Ratelrivier** will hopefully begin middle 2014. The development of **Waterford** in the west as a ranger station will start in 2014. The upgrading and renovations of the **Bosheuvel** office complex started in November 2013 and will be finished by the end of the year.
